PROJECTS

Echoes of Isolation – Final Year Project

- Developed a voice-responsive paranormal horror game using Unreal Engine 5.
- Implemented enemy AI, puzzle mechanics, sanity system, and immersive horror gameplay.
- Used C++ and Blueprint Visual Scripting for game development.
- Created a responsive promotional website using HTML, CSS, JavaScript, Bootstrap and n8n.
- <https://zaifa25.github.io/Echoes-of-Isolation/>

AI Chatbot & Automation System (n8n)

- Developed an AI-powered chatbot using n8n automation workflows with a web-based frontend.
- Integrated automated responses, workflow triggers, and API-based communication.
- Designed responsive frontend interfaces using HTML, CSS, Bootstrap, and JavaScript.
- Improved workflow efficiency through automation and real-time data handling.

ZAIFA-AI-Assistant

- Developed an AI-powered email automation assistant using Flutter and n8n.
- Implemented voice and text command functionality for automatic email sending.
- Integrated REST APIs and webhooks for communication between the Flutter app and n8n workflows.
- Built a responsive and user-friendly mobile application interface.
- Automated email processing without requiring users to open an email client manually.
- Utilized voice recognition technology to enhance user interaction and accessibility.
- Managed project version control using Git and GitHub.

SKILLS

Unreal Engine 5, HTML5, CSS3, JavaScript, Bootstrap, React, PHP, Laravel, n8n Automation, REST API, Webhook Integration, Flutter & Firebase, Git & GitHub, Docker, AWS Basics, Problem Solving.

EDUCATION

Bachelor of Science in Computer Science (BSCS)

COMSATS University
Islamabad, Wah campus
2022 - 2026
